JUSTIFICATION:

Based on aerial survey information collected in October 2015 a guideline harvest of 3 points (male goat=1 point & female goat=2 points) was established for this zone of the RG015 hunt area. As of Wednesday, October 12, 2016, the reported harvest is 1 male and 1 female goat for a total of 3 points. Due to the vulnerability of goat in the area and because the guideline harvest has been met, managers consider it necessary to close this season early to prevent additional harvest in the area described above.

An Emergency Order (01-20-16) was issued that closes the mountain goat season in this area on Friday, October 14, 2016@ 11:59 pm.
